

STRATEGIC GOALS 2021-2025

We're the ones, taking care of .si

MISSION

Registry.si provides stable, secure, uninterrupted and reliable operations of .si on the Internet.

.si is an internationally renowned ccTLD representing Slovenia. It is the first choice Internet address for everyone operating in Slovenia.

VISION

VALUES

We pursue excellency and strive towards efficient, sustainable, ethical and transparent relations with registrars, domain holders and business partners.

We cater to the requests and requirements of the local Internet community and contribute to the development of information society in Slovenia.

Registry .si cares for the welfare of its employees.

* manages top-level DNS server
for .si

Stability, security and reliability of .si

Registry .si provides secure, stable and uninterrupted services.

We are continuously updating and developing our services according to international standards and recommendations.

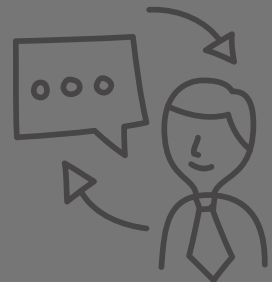

Registry .si actively participates and represents interests in international organizations.

.si as the first choice

We are strengthening the Slovenian web identity and .si reputation.

We raise awareness about the benefits of having a local domain.

We are sharing and highlighting examples of good practice under .si.

Care for the development of the Internet in Slovenia

We contribute to a wider understanding of the domain name landscape with our knowledge and expertise and by actively participating in relevant debates.

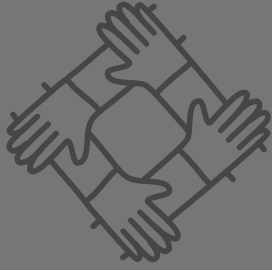

We are actively involved in Internet governance discussions as well as other local community projects that promote Internet services in Slovenia.

We participate in discussions on relevant legislation in the field of the Internet.

Socially responsible and sustainable practices

We are establishing business relations with registrars, domain name holders and business partners that are based on mutual trust.

The welfare of our employees is our priority.

We operate efficiently, transparently and with quality.
